

Process for including Reading Programs that we do not currently have fidelity checks:

- Complete “Guidelines for Selecting a Reading Program”
- Direct instruction component is included and is delivered in at least a thirty minute lesson
- Check for a third party research study
- Implementation Plan
- Pilot and track efficacy for one year (if no third party research is available)

Once the above criteria have been met, the LEA will be responsible for developing a fidelity checklist that conforms to the NCSIP rating scale. The form will then be submitted to a NC DPI consultant for approval.
